**DRIVEWAY ORDINANCE
(REVISION 2001)**

No person, corporation or firm shall construct a new driveway or alter an existing driveway in the Town of Union without first obtaining a permit from the Public Works Director, hereinafter referred to as the "Director".

Approval of an application for a permit for a driveway shall be subject to the following conditions:

- 1 The applicant is the owner of the property, or owner jointly with the contractor, and any driveway approach constructed by or for the applicant is for the bona fide purpose of securing access to his property and not for the purpose of parking or servicing vehicles on the highway right-of-way.
- 2 Any driveway, approach or improvement constructed under permit within the highway right-of-way shall be subject to inspection at any time by the Director or Planning and Zoning Commission, or its agent. The Director or the Planning and Zoning Commission reserves the right to require such changes, additions and relocation thereto, as in its' opinion, may be necessary for the relocation, reconstructing widening or maintenance of the highway or to provide protection of life and property on or adjacent to the highway.
- 3 No driveway, approach or other improvement constructed on the highway right-of-way, under permit, shall be altered without written permission of the Commission or its agent.
- 4 The applicant agrees to hold harmless the Town of Union or its duly appointed agents and employees against any action for personal injury or property damage sustained by reason of the exercise of the permit
- 5 The proposed location, design and construction of any driveway under permit shall be evaluated by the Director in accordance with the following criteria:
 - a. No driveway shall have a slope greater than four percent (4%) at any point within a distance of ten (10) feet of the highway right-of-way. Whenever any driveway rises in elevation from the level of the adjoining road, any portion of the driveway that has a slope greater than or equal to ten percent (10%) must be paved. All driveways shall be designed to prevent storm water and debris from entering the traveled portion of the adjoining highway.
 - b. The width of any driveway shall not exceed thirty (30) feet. The flare end of the driveway, where it meets the highway, is not to exceed forty (40) feet. The area within Town or State property between driveways shall not be improved to facilitate vehicular traffic or parking. This area shall be considered restricted, and may be developed only as hereinafter provided in Paragraph 1.
 - c. No driveway shall be so constructed that any part of such driveway, including necessary excavation, is less than ten (10) feet from the extended common boundary separating adjacent private properties.
 - d. The construction of parking areas on the highway right-of-way is prohibited. Places of business requiring parking space for their customers shall provide such facilities on their own premises. Residential driveways exceeding three hundred (300) feet in length shall have a turn around area at its end large enough to accommodate emergency vehicles in accordance with the recommendations of the Fire Chief or his designee.
 - e. Drainage discharged from any road or flowing within the right-of-way shall not be altered or impeded and the applicant must provide suitable drainage structures as directed by the Director or Planning and Zoning Commission.
 - f. When a curb and gutter are removed, the driveway shall be constructed so that the curbing along the highway shall be returned into the entrance and exit on a radius of not less than two (2) feet or not more than fifty (50) feet.
 - g. All driveways shall be so located that vehicle operators approaching or using them shall have an unobstructed line of sight of two hundred (200) feet in both
